And Photothermal Association**

Novi Sad, October 10th 2013

**Support Letter to Host the 2015 International Conference on Photoacoustic
and Photothermal Phenomena in Novi Sad, Serbia.**

Distinguished Madams and Sirs,

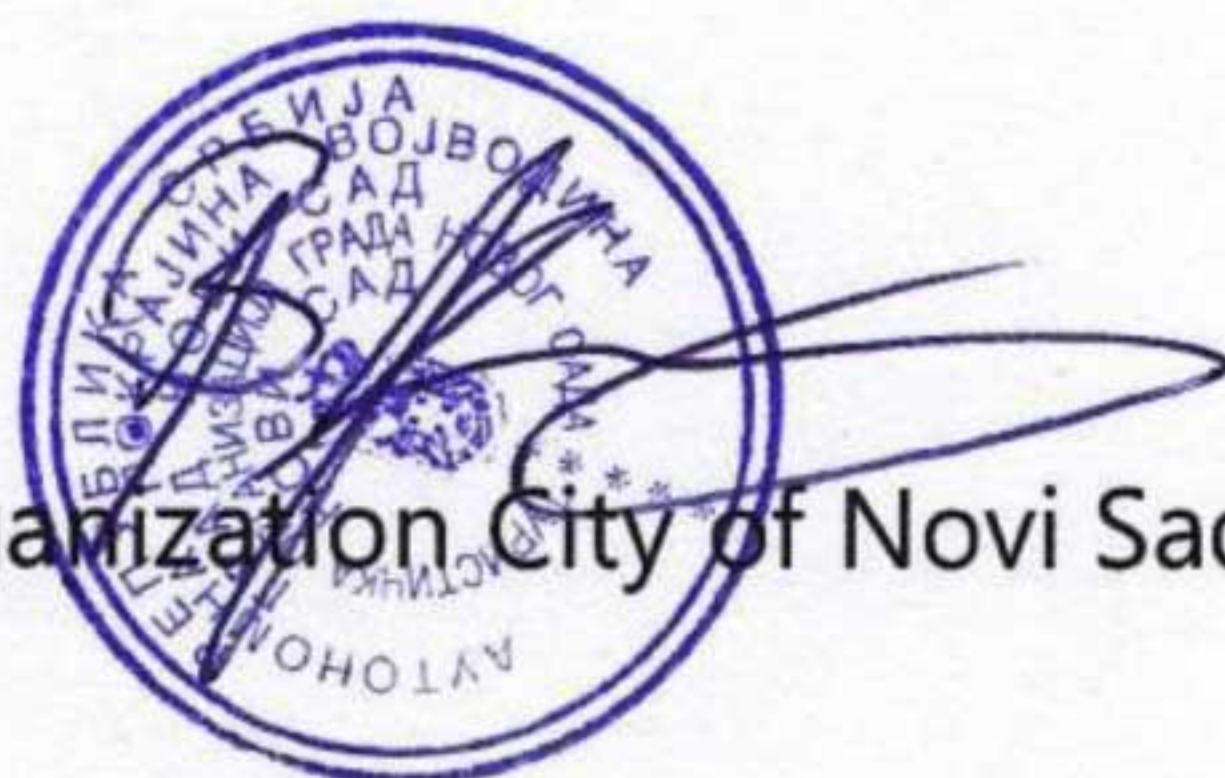

It is our great pleasure to give support to the effort made by two eminent Institutes from Serbia (Institut of Multidisciplinary Research and Institute of Physics, University of Belgrade), which are joint candidacy for hosting the 18th International Conference on Photoacoustic and Photothermal Phenomena in July 2015 in second largest city in Serbia, Novi Sad.

My team and I personally are fully convinced that by supporting this event we will have great opportunity to show how good hosts we are for our dear guests from all over the world in the way our city and our country are already well-known for.

I am very thankful for considering Serbian Society submission for this prestigious event.

Sincerely yours,

Branislav Knežević
Director of Tourist Organization City of Novi Sad
